

Notice of possible high heat exposure during transit.

Greetings,

To our valued customers & guests,

As temperatures rise across North America, we want to ensure you're aware of the potential impact on your orders. Some of our products, particularly those made with butters and wax, may be affected by the heat during transit.

While we do our best to prepare our products for shipping, it's important to consider the weather conditions in your area and the transit time you select. High heat exposure can cause some products to melt or change consistency, but rest assured, their quality remains intact.

If your product arrives melted or altered in shape, simply refrigerate it upon receipt. Once it solidifies, it can be stored at room temperature and used as normal.

If you have any questions or concerns, please don't hesitate to reach out to us at OrganicAllureUSA@gmail.com. I'll personally respond to assist you.

Thank you for your understanding and support.

Kindly,

Zaina
